SRI will inspect newly-purchased instruments/equipment at no charge and will provide you with an estimate for the repair. Any damage that is found to be covered under your original manufacturer's warranty will be immediately reported to you and the instrument will be returned. Once in SRI possession, each item is insured for its full replacement value.

16. **Return Goods Policy: Ground-shipping charges incurred for returning equipment under warranty will be paid by SRI. SRI will pay for freight in the event of a shipping error caused by SRI. If the shipping error is a result of the ordering facility, freight will be paid by them.**
17. **Loaner Equipment: SRI provides loaner equipment to its customers while their instrument is being repaired. The customer maintains full responsibility while the loaner instrument is in their possession. If the loaner is damaged, SRI will bill the facility for the amount of the repair or the full value of the instrument, whichever is less.**
- (a) Loaners must be returned to SRI within five (5) days after receipt of the repaired instrument.**
 - (b) Customers are responsible for handling and shipping charges.**
 - (c) Loaners can be requested by calling 1 (800) 724-9885.**
18. **In-services/Preventative maintenance (personnel training):**

FREE IN-SERVICE TRAINING (FLEXIBLE & RIGID ENDOSCOPES)

This training is designed for: Biomedical Engineering, GI/Endoscopy, SPD and OR staff
SRI strongly recommends the implementation of in-services in order to help minimize unnecessary expenditures and regular equipment breakdown. This service is provided free of charge and at the customer's request. In-services are administered by SRI personnel with extensive experience in product knowledge and maintenance. This program will give a better appreciation of the value and sensitive nature of the endoscopes and should instill a greater desire to protect them. This highly advanced and practical training offers the following:

- **A demonstration and explanation of the endoscope's operating functions**
- **A Close look at the internal components**
- **Most common repairs and their causes**
- **Proper care, handling and reprocessing techniques**
- **Proper leak testing procedures**
- **Troubleshooting tips**

Customers are also welcome to visit our repair facility to gain a visual understanding of the repair processes and become acquainted with our technical staff.

FREE PREVENTATIVE MAINTENANCE & ON-SITE INSPECTION (FLEXIBLE & RIGID ENDOSCOPES)

SRI strongly recommends the implementation of routine on-site inspection and evaluation of flexible and rigid endoscopes to promptly identify and correct minor problems before they become more costly. This service is provided free of charge and at the customer's request. This program will help you have an ongoing awareness of the condition of your equipment and allow you to better control your expenditures by taking a proactive role in monitoring your inventory. This service offers the following:

- **Thorough on-site inspection and evaluation of endoscopes**
- **Evaluation of cleaning and storage conditions**
- **Identifies endoscopes needing immediate attention to avoid increased damage**
- **Provides preventative maintenance tips to help minimize costly repairs**
- **Provides detailed computerized evaluation reports**
